

State-of-the-Art Pet Salon Opens in Superlative Animal Hospital

by Joseph Patrick Pascale

January 20, 2014

Springfield, NJ – Local veterinarian Dr. Stephen Patel announced today that a pet salon has opened in a new wing of the Superlative Animal Hospital. This wing of the animal hospital now features grooming for a variety of pets, including dogs, cats, exotic animals, and any pets already under the hospital's care.

"I'm delighted to present this pet salon to the residents of Springfield," Dr. Patel said during the grand opening event. "You've come to trust Superlative Animal Hospital for the emergency care that matters the most to the furriest members of your family. Now, you can bring your pets here to get washed and cut in gorgeous style while they are perfectly healthy. This can ensure that they remain fresh, sparkling, and hygienic."

The new wing boasts staff who have been certified as pet groomers, and it is furnished with top-of-the-line grooming equipment. An online poll is being held to name the salon. Those interested in taking part can cast their vote by logging onto www.superlativeanimalhospital.com and choosing their favorite name.

About Superlative Animal Hospital
